

COMPANY PROFILE

COMPANY OVERVIEW

ABOUT US

Amacebo Electrical Solutions was founded in 2021 by two young ambitious gentlemen from rural and humble beginnings. They worked tirelessly to educate themselves and gain experience in diversified areas of application. This makes the organisation competent in various skill sets to ensure that Amacebo Electrical Solutions remain an agile, innovative and solution based company.

The company was established to offer Innovative ideas on how the contractors may service the clients business space, providing quick and effective responses to the needs of building contractors with the mandate to deliver high-quality electrical works to their clients.

The shared fluidity in execution and passion to make a difference (which stems from the background of the founders) is at the core of what makes Amacebo Electrical Solutions the company of the future.

OUR PROCESS

MISSION

To provide the best quality service with efficient and effective delivery and have this aid the creation of everlasting partnerships within the construction industry.

VISION

Creating a reliable and sustainable delivery based haven for all stakeholders that engage with Amacebo Electrical Solutions, in turn ensuring that organization is the most reliable electrical contractor within the construction industry. Amacebo Electrical Solutions can be a pillar for infrastructure development and an instrument for combating poverty and unemployment in the Southern African region.

MANAGEMENT TEAM

Sbusiso Gumede - Graduated from the Durban University of Technology with a National Diploma in Electrical Engineering in 2016. He has extensive experience in consulting, building services and infrastructure projects whereby he has headed projects in the residential, commercial, offices, educational and Healthcare services as both a consultant and a contractor. He has the natural ability to decipher technical information and consequently this builds on his competence to deal with any complex scenarios within the spaces in which he has serviced.

Lungelo Jaca - Graduated at the University of Kwa-Zulu Natal with a Bachelor in Science Degree in Pure and Applied Chemistry in 2013 and Bachelor of Science (Honours) Degree in Chemistry in 2014. He also graduated from the University of Witwatersrand with a Postgraduate Diploma in Business Administration in 2017 along with a Masters in Business Administration in 2020. He is currently working towards his Bcom in Accounting Sciences. He has technical, commercial and business development experience within the electrical and chemicals sector. He has been involved in the technical and commercial development projects within the electrical and building services, Asphalt, Bitumen, Rubber, Pharmaceutical, Personal Care, Paints and Coatings and Food industries in Southern Africa. His experience includes being involved in key projects within the Raubex group and Wilson Bayly Holmes-Ovcon (South Africa).
